- Plant, equipment and systems of work that are safe;
- Safe arrangements for the use, handling, storage and transport of articles and substances;
- Sufficient information, instruction, training and supervision to enable all employees to avoid
- hazards and contribute positively to their safety and health at work;
- A healthy working environment; and
- Adequate welfare facilities.

It is the school's policy to provide adequate information to identify needs in respect of training and provide supervision as necessary for the health and safety of staff and pupils. The Board of Governors also accepts responsibility for the health and safety of other people who may be affected by school activities.

An annual inspection of the school environment will be carried out by the principal and reported to the Board of Governors. Matters arising will be forwarded to W.E.L.B.
